

# National Environmental Achievement Track

# **Application Form**

Spicer Manufacturing, Inc.

Name of facility

**Dana Corporation** 

Name of parent company (if any)

2075 Corporate Circle

Street address

Cape Girardeau, MO 63703

City/State/Zip code

Give us information about your contact person for the National Environmental Achievement Track Program.

Name Michael Decker

Title Environmental Engineer

Phone 573-339-8416

Fax 573-339-8486

E-mail michael.decker@dana.com

### Why do we need this information?

EPA needs background information on your facility to evaluate your application.

# What do you need to do?

- Provide background information on your facility.
- Identify your environmental requirements.

5 Does your facility have an EPA ID number(s)?

If yes, list in the right-hand column.

1	What do you do or make at your facility?		chines steel, aluminum, and cast ire
2	List the Standard Industrial Classification (SIC) code(s) or North American Industrial Classification System (NAICS) codes that you use to classify business at your facility.	SIC 3714 NAICS 336350	
3	Does your company meet the Small Business Administration definition of a small business for your sector?	Yes	⊠ No
4	How many employees (full-time equivalents) currently work at your facility?	☐ Fewer than ☐ 50-99 ☐ 100-499 ☐ 500-1,000 ☐ More than 1	

X Yes

MOD985773100

☐ No

Section A

Tell us about your facility.

Our facility machines steel, aluminum, and cast iron

# Section A, continued

6 Identify the environmental requirements that apply to your facility. Use the Environmental Requirements Checklist, at the back of the instructions, as a reference. List your requirements to the right <i>or</i> enclose a completed Checklist with your application.	See the enclosed completed Environmental Requirements Checklist.
7 Check the appropriate box in the right-hand column.	<ul><li>☐ I've listed the requirements above.</li><li>☑ I've enclosed the Checklist with my application.</li></ul>
8 Optional: Is there anything else you would like to tell us about your facility?	Our facility was certified to the ISO 14001standard by Underwriter's Laboratories on June 8, 2000.

#### Why do we need this information?

Facilities must have an operating Environmental Management System (EMS) that meets certain requirements.

#### What do you need to do?

- Confirm that your EMS meets the Achievement Track requirements.
- Tell us if you have completed a self-assessment or have had a third-party assessment of your EMS.

Se	ction	B

Tell us about your EMS.

1	Check yes if your EMS meets the requirements for
	each element below as defined in the instructions.

	a. Environmental policy	⊠ Yes
	b. Planning	⊠Yes
	C. Implementation and operation	⊠ Yes
	d. Checking and corrective action	⊠Yes
	e. Management review	⊠ Yes
2	Have you completed at least one EMS cycle (plan-do-check-act)?	⊠ Yes
3	Did this cycle include both an EMS and a compliance audit?	⊠ Yes
1	Have you completed an objective self-assessment or third-party assessment of your EMS?	⊠Yes
	If yes, what method of EMS assessment did you	☐ Self-assessment
	use?	☐ GEMI ☐ Other
		☐ CEMP
		☐ Third-party assessment

# Why do we need this information?

Facilities must show that they are committed to improving their environmental performance. This means that you can describe past achievements and will make future commitments.

# Section C

Tell us about your past achievements and future commitments.

### What do you need to do?

Refer to the Environmental Performance Table in the instructions to answer questions 1 and 2.

1 Describe your past achievements for at least two environmental aspects. If you need more space than is provided, attach copies of this page.

**Note to small facilities:** If you qualify as a small facility as defined in the instructions, you are required to report past achievement for at least one environmental aspect.

#### First aspect you've selected

What aspect have you selected?	What was the previous level (2 years ago)?		What is the current level?		
Reduction in the amount of Filter Press Cake generated during the wastewater pretreatment process.	Quantity	Units	Quantity	Units	
	202,500	Pounds	90,000	Pounds	

i. How is the current level an improvement over the previous level?

During 1998, we generated 202,500 pounds of filter press cake. In 2000, we generated 90,000 pounds of filter press cake. This represents a reduction of 112,500 pounds.

ii. How did you achieve this improvement?

This reduction is attributed to modification in the wastewater pretreatment process.

Second aspect you've selected

What aspect have you selected?	What was the previous level (2 years ago)?		What is the current level?		
Recycling of industrial gloves	Quantity	Units	Quantity	Units	
	53,881	Pounds	13,910	Pounds	

i. How is the current level an improvement over the previous level?

The 1998 number of purchased pairs of gloves was 107,762. In 2000, we purchased 27,821 pairs of gloves. Which represents a reduction of 79,941 pairs of gloves purchased.

Note: The average weight of our industrial gloves is 0.5 pounds per pair.

Additional benefits include the following:

Waste Disposal of "dirty gloves"

1998 - 32,032 pounds

2000 - 0 pounds

Number of Pairs Cleaned

1998 - 7,573 pounds

2000 - 27,490 pounds

ii. How did you achieve this improvement?

The "dirty" gloves are cleaned using a laundering process. Once the gloves are cleaned and sorted they can be re-issued. Depending on the type of glove, they are able to be reused 2-4 times.

2 Select at least four environmental aspects (no more than two from any one category) from the Environmental Performance Table in the instructions and then tell us about your future commitments. If you need more space than is provided, attach copies of this section.

**Note to small facilities:** If you are a small facility, you are required to make commitments for at least two environmental aspects in two different categories.

## First aspect you've selected

a. What is the aspect?

Reduce the annual volume of industrial wastewater discharged to the POTW.

b. Is this aspect identified as significant in your EMS?	Yes □ No	
c. What is the current level? You may choose to state this as an absolute value or in terms of units of	Option A: Absolute value	Current Level:
production or output.	Option B: In terms of units of production	2.56 millon gallons/year (Quantity/Units)
	or output	(Quantity/Units)
d. What is the improvement you are committing to over the next three years? You may choose to state	Option A: Absolute value	Target Level:
this as an absolute value or in terms of units of production or output.	Option B: 2.3 millon gallons/ (Quantity/Units)	
	units of production or output	(Quantity/Units)
e. How will you achieve this improvement?	The reduction of the amount of industrial wastewate discharged to the POTW will be accomplished throu manufacturing process improvements and reuse of cleaned water. Some examples of reuse could inclumake-up water for coolant and washers.	

# Second aspect you've selected

a. What is the aspect?	Reduce the amount of Sulfuric Acid used in the industrial wastewater pre-treatment process.	
b. Is this aspect identified as significant in your EMS?	⊠ Yes □ No	
c. What is the current level? You may choose to state this as an absolute value or in terms of units of		Current Level:
production or output.	Option B: In terms of units of production	14,820 pounds/year (Quantity/Units)
	or output	(Quantity/Units)
d. What is the improvement you are committing to over the next three years? You may choose to state	Option A: Absolute value	Target Level:
this as an absolute value or in terms of units of production or output.	Option B: In terms of units of production	12,968 pounds/year (Quantity/Units)
	or output	(Quantity/Units)
e. How will you achieve this improvement?	The reduction in the amount accomplished with refinement pretreatment process.	

# Third aspect you've selected

a. What is the aspect?	Reduce the amount of Tota (FOG) in the industrial was POTW.	
b. Is this aspect identified as significant in your EMS?	⊠ Yes □ No	
c. What is the current level? You may choose to state this as an absolute value or in terms of units of production or output.	<ul><li>☑ Option A:     Absolute value</li><li>☑ Option B:     In terms of     units of production     or output</li></ul>	Current Level: 1,012 pounds/year (Based on 2.56 million gallon/year @ 47.4 mg/l) (Quantity/Units)
d. What is the improvement you are committing to over the next three years? You may choose to state this as an absolute value or in terms of units of production or output.	<ul><li>☑ Option A:     Absolute value</li><li>☑ Option B:     In terms of     units of production     or output</li></ul>	(Quantity/Units)  Target Level: 738 pounds/year (Based on 2.3 million gallons/year @ 38.47 mg/l) (Quantity/Units)
e. How will you achieve this improvement?	The reduction of Total Fats in the effluent discharged t accomplished with refinem pretreatment process.	

# Fourth aspect you've selected

a. What is the aspect?	Reduce the total annual pur lubricants and metalworking manufactured.	
b. Is this aspect identified as significant in your EMS?	⊠ Yes □ No	
c. What is the current level? You may choose to state this as an absolute value or in terms of units of production or output.	<ul><li>☐ Option A:     Absolute value</li><li>☑ Option B:     In terms of     units of production     or output</li></ul>	(Quantity/Units)  Current Level: 120,011 gallons purchased/year (Based on 2.69 millon pieces produced)(Equal to 0.0447 gallons per component produced) (Quantity/Units)
d. What is the improvement you are committing to over the next three years? You may choose to state this as an absolute value or in terms of units of production or output.	<ul><li>□ Option A:     Absolute value</li><li>□ Option B:     In terms of     units of production     or output</li></ul>	(Quantity/Units)  Target Level: 108,009 gallons purchased/year (Based on 2.69 millon pieces produced)(Equal to 0.0401 gallons per component produced) (Quantity/Units)
e. How will you achieve this improvement?	The reduction of the total armachine lubricants and met accomplished by:  1) improving the manufacture 2) identification and repair of 3) reduction in the amount metal chips,  4) improvement of the coolars	nnual purchased amount of alworking fluids shall be ring processes, of leaking equipment, of fluid carried off on the

#### Why do we need this information?

Facilities must demonstrate their commitment to public outreach and performance reporting. You should have appropriate mechanisms in place to identify community concerns, to communicate with the public, and to provide information on your environmental performance.

# Section D

Tell us about your public outreach and reporting.

#### What do you need to do?

- Describe your approach to public outreach.
- List three references who are familiar with your facility.
- 1 How do you identify and respond to community Concerns and questions regarding the environmental concerns? aspects of Dana-Cape Girardeau's operations by external interested parties can be received through by several means including telephone, e-mail, mail, etc. These concerns and/or questions received at the Dana-Cape Girardeau facility shall be directed to the Plant Manager. The Plant Manager will then evaluate each concern or question on an individual basis to determine the appropriate response. 2 How do you inform community members of Should this arise, the local newspaper would be used important matters that affect them? to inform the community members of matters that affect them. 3 How will you make the Achievement Track Annual ☐ Website www. Performance Report available to the public? Newspaper Newspaper Open Houses ○ Other The availability of the Achievement Track Annual

The availability of the Achievement Track Annual Report shall be announced in the local newspaper. The announcement will include contact information for requesting a copy of the report.

4	Are there any on	going	citizen	suits	against	your
	facility?					

Yes	⊠ No
. 00	

If yes, describe briefly in the right-hand column.

### 5 List references below

	Organization	Name	Phone number
Representative of a Community/ Citizen Group	Cape Girardeau Chamber of Commerce	John Mehner	573-335-3312
State/Local Regulator	City of Cape Girardeau	Ken Leimer	573-334-5150
Other community/local reference	Southeast Missouri LEPC	David Hitt	573-204-0911

# Section E

On behalf of Spicer Manufacturing-Cape Girardeau,

#### I certify that

Application and Participation Statement.

- I have read and agree to the terms and conditions, as specified in the realional Environmental Achievement Track Program Description and in the Application Instructions;
- I have personally examined and am familiar with the information contained in this Application (including, if attached, the Environmental Requirements Checklist). The information contained in this Application is, to the best of my knowledge and based on reasonable inquiry, true, accurate, and complete, and I have no reason to believe the facility would not meet all program requirements;
- My facility has an environmental management system (EMS), as defined in the Achievement Track EMS
  requirements, including systems to maintain compliance with all applicable federal, state, tribal, and local
  environmental requirements, in place at the facility, and the EMS will be maintained for the duration of the facility's
  participation in the program;
- My facility has conducted an objective assessment of its compliance with all applicable federal, state, tribal, and local environmental requirements, and the facility has corrected all identified instances of potential or actual noncompliance;
- Based on the foregoing compliance assessment and subsequent corrective actions (if any were necessary), my
  facility is, to the best of my knowledge and based on reasonable inquiry, currently in compliance with applicable
  federal, state, tribal, and local environmental requirements.

I agree that EPA's decision whether to accept participants into or remove them from the National Environmental Achievement Track is wholly discretionary, and I waive any right that may exist under any law to challenge EPA's acceptance or removal decision.

I am the senior facility manager and fully authorized to execute this statement on behalf of the corporation or other legal entity whose facility is applying to this program.

Signature/Date

Facility ID Numbers MOD 985773100

#### **National Environmental Achievement Track**

# **Environmental Requirements Checklist**

The following Checklist is provided to assist facilities in answering Section A, "Tell us about your facility," Question 6. The Checklist is given to help facilities identify the major federal, state, tribal, and local environmental requirements applicable at their facilities. The Checklist is not intended to be an exhaustive list of all environmental requirements that may be applicable at an individual facility.

If you use this Checklist and choose to submit it with your application, fill in your facility information below and enclose the completed Checklist with your application (see instructions).
